PARENT THERAPY SUPPORT AGREEMENT

I am a parent or legal guardian of _____ . I agree to support my child's therapy by adhering to the following:

1. I will schedule and attend one parent consultation with the therapist before my child's first scheduled therapy session.
2. I will schedule and attend one parent consultation with the therapist after every fifth scheduled therapy session.
3. I may schedule additional parent consultations with the therapist with approval from the therapist.
4. I understand the therapist will respond to my phone call, text message or email by the next business day.
5. If I believe the therapist needs information regarding my child before my child's next scheduled therapy session, I agree to send a *Note to Jennifer* located at <http://www.insightstherapy.com/therapists/jennifer-tipton>
6. If I want to speak with the therapist for 5-10 minutes just before my child's scheduled therapy session, the therapist will attempt to accommodate my request, but I understand the therapist may not be available.
7. I will not engage in discussion about my child in the reception area before or after a scheduled therapy session.
8. In order to respect my child's privacy, I will not initiate discussion about my child's therapy with my child or ask questions of my child about any therapy session.
9. In order to respect my child's privacy, I will not ask the therapist to discuss the details of my child's therapy or have access to my child's therapy records (except billing records), except and to the extent the therapist deems it is in my child's best therapeutic interest to do so.
10. The Insights reception area is shared by many families and individuals, so I agree to support my children in their efforts to be respectful of this shared waiting space by enjoying the toys and books provided while being considerate of others that may also be waiting to see a therapist.
11. I understand a caregiver must remain in the reception area for the duration of the child's therapy session.
